Removed checkboxes until behavior is clear.

gvsig-desktop:r39195

What is the behavior if user does not want to save pos/size? Is it useful not to save it?  
By default , windows persist their pos/size, so NOT persisting that is perhaps more difficult and we have to decide what to do with them.

Remove the checks is ok.

**#4 - 11/06/2012 03:15 PM - Manuel Madrid**

Provided that size and position are stored by default, of course.
