Tiene más sentido lo indicado en el FR 1411, indicar nombre + versión (gvSIG 2.1, por ejemplo)

#5 - 02/08/2014 11:47 AM - Antonio Falciano

"gvSIG Desktop 2.1" should be a good compromise, because:

- "Desktop" is useful to distinguish the desktop version of gvSIG from others (mobile, mini, ...);
- the version number allows to avoid the issue of #1411.

Another cosmetic feature request that IMHO is valid for gvSIG 2.1 too: #916
