It would be interesting to know exactly which tool is missing.

##### #2 - 09/26/2012 01:39 PM - Abenchara Socorro

It could be 'Rename\_column' or 'Export to...'

Both appear in the Table menu but I can't see them in the tool bar

Yes, it's the "rename column" button. This bug is the same as #1041 and is already fixed. I have added it as "duplicated". What do we do with this bug? closed? invalid?

It can be tested in next build (2055)

- Status changed from Awaiting response to Closed
