Only fixed small issue with icon. Proxy is probably the cause of reported connection issue.

gvSIG-catalog:r12

Test:

Perhaps the proxy is causing problems. I tested it from outside the CIT and it works fine.

#4 - 11/05/2012 09:35 AM - Juan Lucas Domínguez

I have tested it inside the CIT and it works after a few seconds. The "wait" icon should behave properly now.

#5 - 11/12/2012 01:17 PM - María Maluenda

- *Status changed from Fixed to Closed*

Closed in the gvSIG build 2057
