<b>Keywords:</b>		<b>Proyecto:</b>	
<b>Has patch:</b>	No	<b>Hito:</b>	
<b>Add-on name:</b>	Unknown		

#### Description

1. Run gvSIG
2. Create and open a view
3. Add layer -> WCS
4. Input the URL: "http://www.ideo.es/wcs/IDEE-WCS-UTM31N/wcsServlet"
5. Press "Next". Get an error.

I'm attaching the log file.

#### History

##### #1 - 10/22/2012 10:04 AM - Manuel Madrid

- Priority changed from Normal to Urgent

##### #2 - 11/07/2012 10:03 AM - Joaquín del Cerro Murciano

- Category set to Raster

- Assignee set to Ignacio Brodín

##### #3 - 11/15/2012 04:30 PM - Ignacio Brodín

- Status changed from New to Fixed

gvSIG-desktop:r39272

gvSIG-raster:r1355

##### #4 - 11/26/2012 10:49 AM - María Maluenda

- File gvSIG-environ.info added

- Status changed from Fixed to New

Now, connect to this WCS 'http://www.ideo.es/wcs/IDEE-WCS-UTM31N/wcsServlet' is not possible. Tested in the gvSIG build 2059-beta2. Attached environ.info

##### #5 - 12/05/2012 05:50 PM - Ignacio Brodín

- Status changed from New to Fixed

This server don't return some layers. When that happens, the server send to the user a error message. Now the message appears in a window in gvSIG.

The message is: EL SERVIDOR IDEE-WCS-UTM31N NO HA PODIDO ATENDER SU PETICION.

Can you test it with other client? Maybe Udig or other. Comment the result in this ticket please.

#### #6 - 12/18/2012 09:58 AM - Abenchara Socorro

- Status changed from Fixed to New

- Target version changed from 2.0.0-rc1 to 2.0.0-final

Steps followed:

1. Run gvSIG

2. Create and open a view

3. Add layer -> WCS

4. You have two options by default (a and b):

a.- No problems with: "http://inspire.cop.gva.es/mapserver/wcs"

- Nules-Burriana
- GEOTIFF\_INT16
- EPSG:23030
- Next ->Accept

b.- Appears an error window with: "http://maps.gdal.org/cgi-bin/mapserv\_dem"

- "Error conectando con el servidor: Server returned HTTP response code: 503 for URL

[http://maps.gdal.org/cgi-bin/mapserv\\_dem?REQUEST=GetCapabilities&#38;SERVICE=WCS&#38;EXCEPTIONS=XML](http://maps.gdal.org/cgi-bin/mapserv_dem?REQUEST=GetCapabilities&#38;SERVICE=WCS&#38;EXCEPTIONS=XML)

c.- "http://www.idee.es/wcs/IDEE-WCS-UTM31N/wcsServlet"

- Activate checkbox Mostrar nombres de capas -> Next
- MDT25 Orientaciones Baleares
- Choose GeoTIFF, EPSG:23030
- Accept

There is no response in option 'c', not even for the rest of the layers available (MDT25 Pendientes Baleares, MDT25 Alturas Baleares)

#### #7 - 12/19/2012 02:10 PM - Manuel Madrid

- Target version changed from 2.0.0-final to 2.0.0-rc3

#### #8 - 12/24/2012 11:47 AM - Ignacio Brodín

- Status changed from New to Awaiting response

The server b is unavailable and I cannot load any layers from the server c using gvSIG 1.x or 2.x. This server always answer

```
<ServiceExceptionReport version="1.1.0">
```

```
<ServiceException>
```

```
EL SERVIDOR IDEE-WCS-UTM31N NO HA PODIDO ATENDER SU PETICION.
```

```
</ServiceException>
```

```
</ServiceExceptionReport>
```

**#9 - 12/26/2012 10:43 AM - Joaquín del Cerro Murciano**

- Target version changed from 2.0.0-rc3 to 2.0.0-final

**#10 - 01/11/2013 10:32 AM - Manuel Madrid**

- Status changed from Awaiting response to Closed

- Target version changed from 2.0.0-final to 2.0.0-rc4
