gvsig-desktop:r39050

Added missing icon and updated declarations in config.xml

Test in BN 2057 or higher:

- Create a view and add a SHP of POINTS, for example: <https://downloads.gvsig.org/download/geodata/vector/SHP2D/aeptpoint.japon.zip>
- Open the attribute table and you should see an icon "Add X,Y" (not a red square)
