- Status changed from New to Fixed

- Assignee set to Juan Lucas Domínguez

Fixed how view is painted in layout frame.

gvsig-app-document-layout:r39

Hello, Mario. I have fixed a bad behavior but I'm not sure if it works in all cases. Can you describe simple steps to reproduce the problem you found?
When the erro happens, which one is correct? The layout in design mode or the final PDF?

#4 - 11/13/2012 02:28 PM - Mario Fevre

I found it this way:

- 1- new project
- 2- new view
- 3- new layer, point
- 4- inser few point un the view
- 5- add column
- 6- fill fields with some strings
- 7- edit symbology, enable labels, fixed sizes, 3 meters in the world
- 8- new map, insert view,
- 9- export to pdf

view = map != pdf

#5 - 11/16/2012 11:46 AM - Juan Lucas Domínguez
- Status changed from Fixed to New

Yes, there is a bug, I'm fixing it now.

#6 - 11/16/2012 04:32 PM - Juan Lucas Domínguez
- Status changed from New to Fixed

Fixed management of dpi when printing labels.

gvSIG-desktop:r39275

The steps described should now work

#7 - 12/17/2012 11:30 AM - Abenchara Socorro

Closed in build 2061 RC2

#8 - 12/27/2012 12:21 PM - María Maluenda
- Status changed from Fixed to Closed
