

Application: gvSIG desktop - gvSIG bugs #1357

Save an existing project of persistence fails

11/06/2012 02:03 PM - María Maluenda

Status:	Closed	% Done:	0%
Priority:	Immediate	Spent time:	0.00 hour
Assignee:	Ignacio Brodín		
Category:	Raster		
Target version:	2.0.0-rc1		
Severity:		Add-on version:	
gvSIG version:	2.0.0	Add-on build:	
gvSIG build:	2057	Add-on resolve version:	
Operative System:	Linux	Add-on resolve build:	29
Keywords:		Proyecto:	
Has patch:	No	Hito:	
Add-on name:	Raster base support (org.gvsig.raster.tilecache.app)		

Description

1.- Open gvSIG BN 2057

2.- File menu, open project: testing/persistence/gvSIG_2_0/*persistence_basic_2_0_WCS.gvsproj*

3.- Save the project

An error appears

Attached .log

The structure to folders is: testing/persistence/gvSIG_2_0/

gvSIG_2_0 folder containing the folder with data **test_data** and **persistence_basic_2_0_WCS.gvsproj project**.

The test data can download: http://downloads.gvsig.org/download/testing/test_plan/gvsig_1x/1.12/gvSIG_1_12_testing.zip

Note: If you open the View 3 (Vista 3 acceso a datos remotos I) and active the layers WCS (Valencia-Sueca, Xeraco-Gandia-Daimús), are recharged and now off and save the project, the error does not appear

1.- Abrir gvSIG BN 2057

2.- Abrir proyecto existente testing/persistence/gvSIG_2_0/*persistence_basic_2_0_WCS.gvsproj*

3.- Guardar el proyecto

Aparece un error

Adjunto .log

La estructura de carpetas es:testing/persistence/gvSIG_2_0/

La carpeta de gvSIG_2_0 folder contiene la carpeta con los datos **test_data** y el proyecto **persistence_basic_2_0_WCS.gvsproj**

Los datos de prueba se pueden descargar de:

http://downloads.gvsig.org/download/testing/test_plan/gvsig_1x/1.12/gvSIG_1_12_testing.zip

Nota: Si abre la Vista 3 (Vista 3 acceso a datos remotos I) y activa las capas WCS, se recargan y ahora las desactiva y guarda el proyecto, el error no aparece

History

#1 - 11/07/2012 09:52 AM - Joaquín del Cerro Murciano

- Category changed from Application to Raster

- Assignee set to Ignacio Brodín

#2 - 11/08/2012 04:54 PM - Ignacio Brodín

- Status changed from New to Awaiting response

The gvsproj file is corrupt. I cannot test this bug. Can you attach a good file?

#3 - 11/09/2012 09:11 AM - María Maluenda

- File *persistence_WCS_off.gvsproj* added

Yes, I attached another project. WCS layer is off, no change and return to save the project, should appear an error. I tested now with the gvSIG build 2057.

#4 - 11/09/2012 09:32 AM - María Maluenda

- Status changed from *Awaiting response* to *New*

#5 - 11/09/2012 10:55 AM - Ignacio Brodín

- Status changed from *New* to *Fixed*

- Add-on name changed from *Unknown* to *Raster base support (org.gvsig.raster.tilecache.app)*

- Add-on resolve build set to 29

Además se soluciona un problema que es que al abrir un proyecto WCS en el toc las propiedades del raster aparecen deshabilitadas. Esto aparece en el build 29 de WCS.

gvsig-raster:r1330

#6 - 11/16/2012 10:25 AM - María Maluenda

- Status changed from *Fixed* to *Closed*

Closed in the gvSIG build 2058.
