Description

It would be useful to add this option to IVectorLegend, and quite simple to implement.
In Charts, we will implement it overriding

```
void draw(BufferedImage image, Graphics2D graphics2D, ViewPort viewPort,
        Cancellable cancel, double scale, Map queryParameters,
        ICoordTrans coordTrans, FeatureStore featureStore, FeatureQuery featureQuery)
        throws LegendException;
```
