Description

Layer reprojected on the fly is not exported to DB correctly (it's not reprojected)

History

#1 - 01/11/2013 02:49 PM - Juan Lucas Domínguez

- Status changed from New to Fixed

Added reprojection code in 'export to JDBC' service.

gvSIG-desktop:r39596

Test:

- create view in EPSG:4326
- Add shapefile in EPSG:23030 (reprojected on the fly)
- Export layer to postgis (the table created must be in EPSG:4326 and can be added correctly to the view)

#2 - 02/26/2014 12:34 PM - Álvaro Anguix

- Status changed from Fixed to Closed
