**Description**

It would be very useful to be able to generate a map sheets layout from a map layout template previously stored.

**History**

**#1 - 07/19/2013 02:05 PM - Manuel Madrid**

Just add that I think for the user is much more natural to create a grid from a layout than from scratch. The user usually knows the paper size (e.g A4, A3, etc.), not the width and height of the map area in the paper.

**#2 - 04/24/2015 12:15 PM - Álvaro Anguix**

- Status changed from New to Invalid

Duplicada.
