Description

1. Create a view
2. Load some data
3. Menu File > Export to > WMC
4. The first time you use this tool you have to possibilities for the parameter "Extent":
 - a) Defined by the view's extent
 - b) Use full extent
5. Select option a) and cancel.
6. Open again the dialog box (menu File > Export to > WMC)
7. Both options are still enabled.
8. Select option b) and cancel.
9. Open again the dialog box (menu File > Export to > WMC)
10. Now the option a) is disabled and so it keeps forever.

En el 2166 en el menú Archivo no me aparece la opción de exportar a WMC, sólo la de abrir WMC. No la he localizado en otro menú, parece que se ha perdido en esta versión.

Por tanto tampoco he podido comprobar si el bug sigue en este build.

Esta opción está en el plugin de WMS (raster):

Lo reasigno a Nacho.
