Add-on name: Unknown	

Description

When I've tried to execute a feature.getDate(i) of a null-value, I got this exception:

```
java.lang.NullPointerException
  at org.gvsig.tools.dataTypes.impl.coercion.AbstractCoerceToDate.coerce(AbstractCoerceToDate.java:45)
  at org.gvsig.tools.dataTypes.impl.DefaultDataType.coerce(DefaultDataType.java:39)
  at org.gvsig.tools.dataTypes.impl.DefaultDataTypesManager.coerce(DefaultDataTypesManager.java:188)
  at org.gvsig.fmap.dal.feature.impl.DefaultFeature.get(DefaultFeature.java:142)
  at org.gvsig.fmap.dal.feature.impl.DefaultFeature.getDate(DefaultFeature.java:361)
  at org.gvsig.fmap.dal.feature.impl.DefaultFeature.getDate(DefaultFeature.java:357)
```

This method should return a null for a null value.

This patch solves the problem.

History

#1 - 11/20/2013 05:57 PM - Joaquín del Cerro Murciano

- Assignee set to Joaquín del Cerro Murciano
- Target version set to 2.1.0-2223-rc1
