<b>Operative System:</b>	<b>Add-on resolve version:</b>
<b>Keywords:</b>	<b>Add-on resolve build:</b>
<b>Has patch:</b> No	

### Description

Hi,

i've got always the same error message :

```
java.lang.IllegalArgumentException: Illegal pattern character 'j'  
IllegalArgumentException pattern character 'j' (-)
```

I'm working on 1.12.0 version because all my project is with the extension .gvp. the 2.0 version at starting my work (in the end of 2011 year) wasnt relatively stable.

When a tool wich will permit transform the project .gvp in .gvproj (keeping characteristics like symbology, colour, scale ...) I will use a latest version such as 2.0 or 2.1.

thanks for your help and with anticipation good year to all

Regards

Loïc

### History

#1 - 12/31/2013 09:46 AM - Loïc DEPLACE

- File gvSIG.log added

with the log file

#2 - 01/15/2014 12:21 PM - Álvaro Anguix

- Project changed from Application: gvSIG desktop to | gvSIG desktop 1
