**Description**

I've installed the build 2218 (gvSIG-desktop-2.1.0-2218-devel-win-x86-standard-withjre.exe), typical installation. When I execute gvSIG, there are a lot of warnings due to SEXTANTE and finally an initialization error, like in attachments.

### History

#### #1 - 02/01/2014 11:59 AM - Álvaro Anguix

- Category changed from Application to Geoprocess
- Assignee set to Ignacio Brodín
- Priority changed from Normal to Immediate

#### #2 - 02/01/2014 02:42 PM - Antonio Falciano

If I execute gvSIG as administrator the warnings disappears (because gvSIG creates successfully the grass, r, saga, etc. folders in C:\Program Files (x86)\gvSIG desktop 2.1.0\gvSIG\extensiones\org.gvsig.geoprocess.app.mainplugin), so these warnigs related to SEXTANTE are due to permissions.

Instead, the initialization errors still remains. Here's the full content of the remaining warning window:

Errors in initialization of application.

Can't find class extension (org.gvsig.raster.tools.app.basic.RasterExtension)

Can't find class extension (org.gvsig.raster.wms.app.wmsclient.wmc.ImportWebMapContextExtension)

postInitialize of extension 'org.gvsig.raster.wms.app.wmsclient.WMSClientExtension' failed

postInitialize of extension 'org.gvsig.raster.osm.app.osmclient.OSMClientExtension' failed

postInitialize of extension 'org.gvsig.raster.wcs.app.wcsclient.WCSClientExtension' failed

postInitialize of extension 'org.gvsig.raster.wmts.app.wmtsclient.WMTSClientExtension' failed

It seems that two classes (*org.gvsig.raster.tools.app.basic.RasterExtension* and *org.gvsig.raster.wms.app.wmsclient.wmc.ImportWebMapContextExtension*) are missing or not referenced well.

#### #3 - 02/03/2014 12:49 PM - Ignacio Brodín

- Category changed from Geoprocess to Application

I've detected two problems in the windows package in this build (2218). One the one hand, the libraries in the package org.gvsig.raster.mainplugin do not have the right version. On the other hand, the library jgdal is not being copied. The error is thrown by the first problem.

**#4 - 02/03/2014 03:05 PM - Ignacio Brodín**

- Status changed from New to Fixed

**#5 - 02/20/2014 11:54 PM - Álvaro Anguix**

- Status changed from Fixed to Closed
