History
\#1-02/08/2014 10:06 PM - Álvaro Anguix

- Category set to Raster
- Assignee set to Ignacio Brodín
- Target version set to 2.1.0-2219-testing
\#2-02/10/2014 12:55 PM - Ignacio Brodín
- Status changed from New to Fixed

The size should not be a problem with images lesser than 5-8 Gb. In this case there was a problem with a variable overflow and some details with the color interpretation when the layer was being tiled. Now, it should be work fine in a tiled or not tiled way.
