Keywords:	Add-on resolve build:
Has patch: Yes	

Description

The patch applied on join up issue [Configurar localizador. Editar leyenda la ventana modal no da el foco a la de Simbologia](#)

OSOR id: #12292

introduced this bug.

I think that as happens in #218 the View should no be taken as the active window. The mapcontrol should be set up on the wizard based on which view is active when the user click on the "add overview layer" option. We can transfer the data between classes in the WFSWizardData object.

The patch is not working jet, but the idea this.

History

#1 - 02/16/2012 07:09 PM - Francisco José Peñarrubia

- Status changed from New to In progress
- Assignee set to Francisco José Peñarrubia

Me pongo que este ticket.

#2 - 02/20/2012 05:35 PM - Francisco José Peñarrubia

- Status changed from In progress to Fixed
- % Done changed from 0 to 100

Applied in changeset r37969.

#3 - 02/20/2014 10:21 AM - Álvaro Anguix

- Project changed from Application: gvSIG desktop to | gvSIG desktop 1
- Target version deleted (1.12.0-rc1)
