```

En el fichero "install.xml" hay un error de sintaxis, falta una comilla en el atributo *name* del tag *project*.

Al marge del error de sintaxis, tiene la pinta de que o debería eliminarse la carpeta "install" del plugin o le faltan ficheros ya que intenta copiar una librería que no esta en el plugin.

```

<project name="org.gvsig.wms default="copy_files" basedir=".">
  <target name="copy_files">
    <copy todir="{gvsig_dir}/gvSIG/extensiones/org.gvsig.app/lib">

```

```
<fileset dir="./files" includes="org.gvsig.remoteclient-2.0-SNAPSHOT.jar"/>
</copy>
</target>
</project>
```

History

#1 - 04/22/2014 02:06 PM - Ignacio Brodín

- *Description updated*
- *Status changed from New to Fixed*

Efectivamente esa librería no debería llevarse y además no está, ya que tira de la org.gvsig.app. Elimino directamente el install.
gvsig-raster:r2755

#2 - 05/01/2014 10:12 PM - Joaquín del Cerro Murciano

- *Target version changed from 2.1.0-2259-rc3 to 2.1.0-2226-testing*

#3 - 05/03/2014 04:46 PM - Álvaro Anguix

- *Status changed from Fixed to Closed*
