Description

There are two issues in the New layer wizard, as represented in the attached screenshot:

- 1) it's not possible to change the CRS;
- 2) the "Add field" button is too close, so its translation is not readable.

History

#1 - 04/20/2020 11:37 AM - Álvaro Anguix

- Status changed from New to Closed

He comprobado en idioma italiano en el 3016 y el botón ya se visualiza correctamente. La creación en una Vista de una capa con distinto EPSG es una restricción que no se va a modificar.
