**Description**

Selection by rectangle doesn't work on the "ferrocarrilAndal.shp", "hidro\_andalucia.shp" (line type) and "urb\_andalucia.shp" (polygon type) layers. We can draw the rectangle but it remains at the view without selecting any element.

I attach the log file.

**History**

#1 - 05/28/2014 05:43 PM - Mario Carrera

- Description updated

Testing it again, it seems the problem is because these layers have more registers in the attribute table than in the view. There are some elements in the table without graphical entity.

#2 - 05/28/2014 06:29 PM - Álvaro Anguix

- Status changed from New to Won't fix
