#### Description

When I execute gvSIG 2.1 BN2228 for the first time, a warning message appears on the splashscreen. Clicking on ok, then gvSIG starts successfully.

In reference to this warning the gvSIG.log reports:

```
INFO main org.gvsig.andami.PluginServices - Can't retrieve persistent values from plugin org.gvsig.app.mainplugin
values = {}
```

```
at org.gvsig.tools.persistence.impl.DefaultPersistentContext$ContextValue.getObject(DefaultPersistentContext.java:163)
```

```
at org.gvsig.tools.persistence.impl.AbstractPersistentState.get(AbstractPersistentState.java:157)
```

```
at org.gvsig.tools.persistence.impl.AbstractPersistentState.get(AbstractPersistentState.java:139)
```

```
[...]
```

```
Caused by: org.gvsig.tools.persistence.exception.PersistenceClassNotRegistered: Class not registered in manager
'Persistence:TRIVIAL_LAYER_ORDER_MANAGER_PERSISTENCE_NAME'.
```

```
at org.gvsig.tools.persistence.impl.DefaultPersistentContext.updateObjectInReference(DefaultPersistentContext.java:291)
```

```
at org.gvsig.tools.persistence.impl.DefaultPersistentContext.access$000(DefaultPersistentContext.java:73)
```

```
at org.gvsig.tools.persistence.impl.DefaultPersistentContext$ContextValue.getObject(DefaultPersistentContext.java:161)
```

```
... 23 more
```

If I execute gvSIG as administrator, then the warning message disappears and appears only sometimes.

#### History

#1 - 06/11/2014 11:08 AM - Antonio Falciano

- File persistence\_error\_bn2228.png added

#2 - 06/30/2014 04:02 AM - Álvaro Anguix

Hi Antonio, Is this happening in the last builds?

#3 - 06/30/2014 04:12 AM - Antonio Falciano

Hi Alvaro, it happened with BN 2228 and 2229 for sure. If it will happen again in the 2230, I'll attach a new gvSIG.log.

#4 - 07/01/2014 05:29 AM - Antonio Falciano

- File gvSIG\_2230.log added

It happens also with BN2230. See gvSIG\_2230.log in attachment:

Caused by: org.gvsig.tools.persistence.exception.PersistenceClassNotRegistered: Class not registered in manager  
'Persistence:TRIVIAL\_LAYER\_ORDER\_MANAGER\_PERSISTENCE\_NAME'.

**#5 - 07/14/2014 04:22 AM - Antonio Falciano**

- File gvSIG\_2234.log added

It happens with BN2234 too. See gvSIG\_2234.log in attachment:

Caused by: org.gvsig.tools.persistence.exception.PersistenceClassNotRegistered: Class not registered in manager  
'PersistenceDynObject:org.gvsig.geodb'.

**#6 - 08/06/2014 05:12 AM - Antonio Falciano**

- Status changed from New to Closed

This issue doesn't happen since build 2234, so I close the ticket.
