Description

If I create a new view, open its properties and try to change its CRS, I see a new option (called "CRS") in the Type menu, which was not available in the past. See the screenshot in attachment.

History

#1 - 08/11/2014 06:21 AM - Antonio Falciano

- Status changed from New to Invalid

I've just discovered that the CRS option in the Type menu was introduced in order to add the support of CRS:84 (#756), so I set this ticket as invalid.
