gvSIG build: 2230	Add-on resolve version:
Operative System:	Add-on resolve build:
Keywords:	Proyecto:
Has patch:	Hito:
Add-on name: Unknown	

Description

Steps in order to reproduce this bug:

1. create and open a View in EPSG:4326;
2. add a shp layer defined in a CRS with a different datum (e.g. EPSG:23032);
3. select the layer and then click on the Properties button in the "Add layer" dialog;
4. the Advanced tab (instead of the Basic one) is active by default.

An alternative could be to group the two tabs controls in only one.
