Description

I've updated org.gvsig.app.document.layout.app.mainplugin from the Plugin Manager and then restarted gvSIG. An initialization error occurs (see gvSIG.log) which involves several plugins. There are two extension folders in the *extensiones* one:

- *org.gvsig.app.document.layout.app.mainplugin* (v2.0.22)
- *org.gvsig.app.document.layout1.app.mainplugin* (v2.0.23)

History

#1 - 10/15/2014 03:53 AM - Antonio Falciano

- Status changed from New to Closed

The issue is well managed during the initialization process in the latest testing builds (2249 at the time of writing), so I close the ticket.
