Revision 41874 - 12/10/2014 12:47 PM - Joaquín del Cerro Murciano

refs #2690. Corregido un error al intentar reproyectar un punto pasándole con transformación un null. Se ha dejado que si recibe un null no reproyecta el punto dejándolo sin modificar. Esto pasaba con la implementación de proyecciones de jCRS al intentar reproyectar de 4326 a 4326 (la misma proyección).

Hasta donde he podido comprobarlo a mi me funciona.

Voy a suponer que se trata de algun error en la generacion del paquete de GPE, lo genere de nuevo y lo marco como corregido. Si persiste lo volveremos a reabrir.

Antonio, ¿ podrias adjuntar o hacerme llegar por correo el shape que estas usando asi como indicarme la proyeccion de la vista y la proyeccion con la que cargas el shape en la vista ?

#12 - 10/10/2014 11:49 AM - Antonio Falciano

Hi Joaquín, I've just tried with this shape [1] (EPSG:4326) in a view defined in the same CRS and the same error happens.

- File gvSIG.log added

He exportado varias capas de líneas, puntos y polígonos y funciona.

Sin embargo con la capa de países me falla (adjunto log).

No sé si tendrá que ver con la existencia de multigeometrías
