Description

gvSIG doesn't connect to this WMS server:

http://www.idemap.es/arcgis/services/Ortos1000_2012_PROV_ETRS89/MapServer/WMSserver?

(Source: <http://www.idemap.es/idemap/ServiciosWMS.html>)

If we add the GetCapabilities at the end it connects but the layers are not shown correctly.

It connects to the other services of that web page.

He comprobado que ese servicio no funciona, independientemente de que usemos gvSIG o no.
