**Description**

Dear all,

I have installed gvSIG RC2 and It has occurred as follow:

1 - after setup completed, some icons appears as red squares (see fig1)

2a - if I try to install any plugin, an error/warning message appears (see fig2).

2b - the plugins installation seems to be fine but, after restart, they are not available

3 - when I close the software a warning message appears (see fig3)

Point 2a always appears while 1, 2b, and 3 do not appear anymore after first setup.

Operation system windows 8.1

Thanks,

Giuliano.
