### Description

It's not possible to load DXF files produced by OGR. It occurs the following exception:

```
java.io.IOException: DxfReader: cĩ½digo 421 desconocido.
```

In order to reproduce the issue, simply convert a SHP as DXF:

```
ogr2ogr -f DXF foo.dxf foo.shp
```

and then try to load it in gvSIG.

Note: In gvSIG 1.12 it works fine instead.
