### Description

An useful improvement for view documents would be an "Add to locator" TOC entry in the contextual menu of an active layer. The corresponding action should be to add the active layer to the view locator with the same symbology and the view CRS.

### Associated revisions

#### Revision 42448 - 11/02/2015 05:54 PM - Daniel Martinez

refs #3091 New fucionality added. Now you can add directly the selected views to locator
