Has patch:	Hito:
Add-on name: Unknown	

Description

The Scripting plugin available since build 2307 is the 1.0.0-SNAPSHOT-43, i.e. the same version of gvSIG 2.1. So its translations (#2651) are not available yet.

History

- Status changed from New to Invalid

Hi Antonio. It's not a bug, 1.0.0-SNAPSHOT-43 is the last plugin of scripting.

We plan to update this plugin after gvSIG 2.2

We plan to update this plugin after gvSIG 2.2*

Ah ok, so the latest revisions will not be available in gvSIG 2.2 and we have to wait gvSIG 2.3 (end of 2015)... In my humble opinion, too much if we all want to really spread the scripting capabilities of gvSIG. If the framework is not translated, the newbies will feel it less comfortable and user-friendly. :(
