Description

When we use the Filter tool in a String field, and the text has an apostrophe it doesn't work, we get an error.
For example:
Comarca= 'L'Alcoia'

It doesn't work even writing two apostrophes:
Comarca= 'L"Alcoia'

In fact is not possible to write a text in the table that contains a single quote (key { ' ? } in spanish keyboard) neither an apostrophe (key { ^ ` } in spanish keyboard).

To reproduce start editing on a table and try to write a text like L'Alcoia. Only 'L' will be written.

#3 - 06/23/2015 03:16 PM - Antonio Falciano

Hi all,

the error messages suggest me that the escape character should be backslash:

Comarca = 'L\'Alcoia'

but unfortunately it doesn't work as expected here.

Workaround: use the wildcard char for a single char (underscore) in place of the internal single quote. So the example above becomes:

Comarca like 'L_Alcoia'

#4 - 03/05/2019 03:17 PM - Álvaro Anguix

- *Status changed from New to Closed*

With the new filter it works fine

#5 - 03/05/2019 03:17 PM - Álvaro Anguix

- *Target version set to 2.5.0-2914 (rev. org.gvsig.desktop-2.0.242)*
