Target version:			
Severity:		Add-on version:	1.0.0-SNAPSHOT
gvSIG version:	2.0.0	Add-on build:	9
gvSIG build:	2045	Add-on resolve version:	1.0.0-SNAPSHOT
Operative System:		Add-on resolve build:	10
Keywords:		Proyecto:	
Has patch:	No	Hito:	
Add-on name:	Thematic maps: Creator (org.gvsig.educamapping.app.editor)		
Description			
<p>The thematic map files are generated with a folder for each layer in the view, containing the layer data files.</p> <p>But as of now each folder into the thematic map contains all the view files, so for each layer all the data files are duplicated.</p> <p>To solve it just don't create a folder for each layer, it will also avoid problems with characters in the folder names.</p>			

History

#1 - 03/28/2012 12:43 PM - Jose Manuel Vivó Arnal

- Status changed from New to Fixed
- % Done changed from 0 to 100

Fixed in gvsig-educa-mapas-tematicos:r167

All layer-files copy to layer-root folder.

Compares files by name, length and time stamp to determine that is the same file. Else copy as new file (avoid name conflicts).

Create a impl test to check it.
