<b>Has patch:</b>	No	<b>Hito:</b>	
<b>Add-on name:</b>	Thematic maps: Creator (org.gvsig.educa.thematicmap.app.editor)		
<b>Description</b>			
<p>The thematic map files are generated with a folder for each layer in the view, containing the layer data files.</p> <p>But as of now each folder into the thematic map contains all the view files, so for each layer all the data files are duplicated.</p> <p>To solve it just don't create a folder for each layer, it will also avoid problems with characters in the folder names.</p>			

#### History

##### #1 - 03/28/2012 12:43 PM - Jose Manuel Vivó Arnal

- Status changed from New to Fixed

- % Done changed from 0 to 100

Fixed in gvsig-educa-mapas-tematicos:r167

All layer-files copy to layer-root folder.

Compares files by name, length and time stamp to determine that is the same file. Else copy as new file (avoid name conflicts).

Create a impl test to check it.

##### #2 - 02/26/2014 12:40 PM - Álvaro Anguix

- Status changed from Fixed to Closed
