Description

The scale number at the View only shows the last 7 characters, so when it is higher to 999.999 it cuts the number, the text box is not resized when we zoom on the View.

The box is only resized if we write the scale number from the keyboard.

- Target version changed from 2.3.0-2447-final (rev. org.gvsig.desktop-2.0.153) to 2.3.0-2432 (rev. org.gvsig.desktop-2.0.138)
- Status changed from New to Fixed

Now the scale used is added to the comboBox model, so it is shown when it is expanded and growths when its size is incremented. Only one used scale is added to the combo box.
