**Description**

Al ejecutar gvSIG en un windows 64 bits no se muestra la informacion sobre las dependencias de las DLL en el fichero "gvSIG-launcher.log"

Al parecer se esta usando la version 32 bits del comando "cygcheck.exe" y esta version no es capaz de obtener las depedencias en un sistema de 64 bits. Habria que usar la version de 32 o de 64 bits de este comando segun sea la arquitectura del sistema.

refs #4090, paso a usar la version de 64bits del comando cygcheck para la distro de win64

### History

**#1 - 02/05/2016 12:10 PM - Joaquín del Cerro Murciano**

- Target version changed from 2.3.0-2447-final (rev. org.gvsig.desktop-2.0.153) to 2.3.0-2421 (rev. org.gvsig.desktop-2.0.127)
- Status changed from New to Fixed

**#2 - 02/08/2016 11:32 AM - Antonio Falciano**

Hi Joaquín, it seems that cygcheck.exe is the same of build 2420, so no further information about dependencies.
