**Description**

The 3D vector layers can't be exported as DXF in build 2426, while they were in gvSIG 2.2 even if flattened (2D). The right result should be a DXF 3D.

refs #4195 Arreglada la escritura y lectura de DXF 3D

### History

**#1 - 06/15/2016 05:42 PM - Francisco Díaz Carsí**

- Status changed from New to Fixed

Arreglada la escritura y lectura de archivos DXF 3D.

De momento, no soportamos DXF 3DM, así pues, cuando se intente exportar una capa 3DM (como es el caso del ejemplo) las geometrías perderán la M al guardarlas en el DXF.
