Description

When a project is saved and it doesn't have 3D views, it sometimes saves 3D elements.
It makes that when we open it in a gvSIG without 3D view extension we get a Persistence error.
I attach log file.

Se persisten las propiedades 3D de la vista, las propiedades 3D de cada capa y las propiedades 3D generales.

Voy a probar a reproducir el error.

- Status changed from In progress to Invalid

He intentado reproducir el error pero no he podido. Deja abrir el proyecto normalmente.

Cierro tarea ya que creo recordar que se modificó la persistencia para que no fallara en caso de que no pudiera recuperar algunos datos de plugins no

instalados.
