Description

The line and grid symbology for fill are not in gvSIG now.

It would be interesting to add them at the "gvSIG Basic" library.

I attach the package with them.

He añadido los dos simbolos a "gvSIG Basic", pero no tengo claro que esten correctos.

En el paquete hay dos simbolos y dos juegos de imagenes en svg (seleccionada y normal).

Pero los dos simbolos usan el mismo juego de imagenes, con lo que un juego de imagenes no se usa.

No veo ningún cambio en la simbología básica por lo que como dice Joaquín el paquete no debe de estar bien.
