Description

Durante el proceso de instalacion, despues de haber instalado el plugin de JRE da un error y no instala la aplicacion.

La salida por pantalla es:

```
Installing JRE plugin (This may take a while)...
JRE plugin installed.
Extrating packages (This may take a while)...
Packages extracted.
INFO launch gvSIG Installation folder: /home/jjdelcerro/gvSIG-desktop/gvSIG-desktop-2.3.0-2435
INFO launch gvSIG home folder: /home/jjdelcerro/gvSIG
chmod: no se puede acceder a «/bin/java»: No existe el archivo o el directorio
```

Presumiblemente tambien fallara en linux 32 bits.
