Description

When we use "Labels defined by user" option, and "All features at the same way", it doesn't work correctly.

- Labels take a lot of time to appear.
- Not all the labels appear.

It works correctly in gvSIG 2.2.

I attach log file and two images with an example, in gvSIG 2.2 and 2.3, with the same label configuration (labelling by one field, and 14 pixels). In gvSIG 2.3 it took about 45 seconds and not all the labels appear.
