Al parecer esta usando la version de org.gvsig.tools 3.0.91 cuando deberia ser la 3.0.93.

#2 - 10/23/2016 08:20 PM - Joaquín del Cerro Murciano

Al parecer habia que actualizar en org.gvsig.raster.cache la version de org.gvsig.desktop.

#3 - 10/23/2016 08:21 PM - Joaquín del Cerro Murciano

Ademas parece que habia perdido el metodo createStore del DataManager, que estaba deprecated y aun se usaba.

Voy a recuperar el metodo (como deprecated) para mantener compatibilidad ~~y voy a dejar de usarlo en en org.gvsig.raster.lib.impl~~
