refs #4485, deshabilitado el boton de siguiente al iniciarse la instalacion de paquetes. Tambien se ha hecho que salte la instalacion de los paquetes por defecto solo se realiza durante el proceso de instalacion de la aplicacion y no cada vez que se lanza el instalador de complementos.

- Target version set to 2.4.0-2850-final (rev. org.gvsig.desktop-2.0.220)
- File next.png added

The Next button of the Add-ons manager is active also during the package install. IMHO the Cancel button should be the only active one during this install step.
