Need instructions in order to check the bugfix.

But I tested this bug in build 2049 (Linux) and exported a *.dgn and *.dxf to shp ok.

Instructions:

- Download and unzip file from https://downloads.gvsig.org/download/geodata/vector/DXF/V0813_LaRioja.dxf.zip
- Create view, add that DXF and export to SHP
- Three SHP layers will be created (some of them can be empty, but this is OK because the DXF does not have every type of geometry)

#8 - 07/10/2012 08:15 AM - Juan Lucas Domínguez

- Target version changed from 2.0.0-devel-2048 to 2.0.0-devel-2050

Changed target version so it can be tested in next build
