Description

Reportado por Víctor

Al crear el repositorio me salió un mensaje en la barra de estado y en el log, pero se creó bien.

No consigo reproducir el bug, ni creando un repositorio de H2 ni de Oracle.

El error dice que no existe la variable REPOSITORY_CODE y compruebo que se está creando e inicializando con un valor correcto.

Pongo el estado de la petición a "Invalid" lo cual quiere decir que en el momento de revisarla, no se produce el error, pero no quiere decir que en el momento de reportarla no se produjera, tal vez se haya arreglado entre ambos momentos.
