Description

I tried to install the three geoprocessing plugins on gvSIG 2.0 BN2045 but the process stopped at mid-downloading.

I already had an old version of these plugins installed.

I Attached the log file.

History

#1 - 04/23/2012 09:57 AM - Cesar Ordiñana

- Status changed from New to Won't fix

I can't see any error trace in the gvSIG log file :(.

As it seems you have already tried to install them in the 2046 build and they seem to have been downloaded fully, I'm going to close the ticket. We can reopen it if it happens again in another build.
