You can not change to 4 digits tile size in the gvSIG build 2051.

1.- Open gvSIG

2.- Click in preferences

3.- Select Tile Cache

4.- Change size Tile (1024)

5.- Click Ok

6.- Click preferences (you can check that tile size is default option isn't 1024). If you close gvSIG to apply changes (tile size=1024) when you reopen gvSIG/preferences/Tile Cache, check that tile size is default option isn't 1024.
