Update of Italian translation of JWizardComponent.jar

07/24/2012 08:52 PM - Antonio Falciano

Status: New	% Done: 0%
Priority: Urgent	
Assignee: Francisco Puga	
Category:	
Target version:	
Severity:	Add-on name: Unknown
gvSIG version: 1.12.0	Add-on version:
gvSIG build:	Add-on build:
Operative System:	Add-on resolve version:
Keywords: wizard, i18n, Italian	Add-on resolve build:
Has patch: No	
Description	
<p>I attach the right translation of the wizard buttons in JWizardComponent.jar. It was an annoying fix to do since early versions of gvSIG, always reported on gvSIG Italian mailing list and updating gvSIG i18n translations. For instance, see: http://osgeo-org.1560.n6.nabble.com/traduzione-italiana-dell-interfaccia-td4180131.html</p>	

History

#1 - 07/28/2012 07:37 PM - Antonio Falciano

- File JWizardComponent.jar added

I attach the JWizardComponent.jar with the updated Italian translation.

Instructions for testers: copy the JWizardComponent.jar file in "gvSIG desktop 1.12.0/bin/lib" folder and for example check the wizard of the Addons manager. The translation of the Back, Next, Finish and Cancel buttons should be updated in Italian.

#2 - 07/30/2012 06:22 PM - Francisco Puga

- Status changed from New to Fixed

- Assignee set to Francisco Puga

fixes in r38623

#3 - 08/06/2012 03:57 PM - Antonio Falciano

- Status changed from Fixed to New

In gvSIG 1.12 RC2 (build 1414), JWizardComponent.jar is not updated yet. Cheers.

#4 - 08/17/2012 10:39 AM - Francisco Puga

Hi,

In the jar that you provided the folder "images" that exists in the original one is missing, so i packaged my own version of the jar. If you open the jar

that i push in r38623 you can see that the properties are there. Not sure why is not working.

#5 - 08/17/2012 12:15 PM - Antonio Falciano

- File JWizardComponent.jar added

Hi Francisco,

it seems that the jar in r38623 doesn't work. So I attach another jar file containing the "images" folder. Let me know if it's right this time. Cheers.

Please, take a look at the jar uploaded to the repo

<https://devel.gvsig.org/redmine/projects/gvsig-desktop/repository/changes/trunk/libraries/libUIComponent/lib/JWizardComponent.jar>

It already contains the translation that you provided. If the interface is not being correctly translated i don't where we should put the properties files.

#7 - 09/11/2012 09:42 AM - Antonio Falciano

Hi Francisco, maybe last month I was not too much clear... r38623 doesn't work for me: wizards are not executed at all, instead the updated version with "images" folder [1] works like a charm. Where is the problem with this?
